● ABOUT ME

As a software developer with a keen interest in artificial intelligence, I have a strong belief in technology's ability to solve real-world problems, particularly on the African continent. I am passionate about using my skills to design intelligent solutions that address challenges in healthcare, agriculture, education, and other sectors, leading to significant improvements in people's lives.

● WORK EXPERIENCE

18/06/2022 – CURRENT Accra, Ghana

SOFTWARE DEVELOPER FASYL TECHNOLOGY GHANA

- As a Software Developer at FasyL Technology Ghana, I have been actively involved in designing, developing, and implementing financial systems using the Java Spring Boot framework and Python. My responsibilities have included writing efficient and scalable APIs to support these systems while adhering to software development best practices such as coding standards, version control, and testing methodologies. I have also actively contributed to the development of new projects and initiatives while assisting in project planning and estimation.
- In addition to my technical responsibilities, I have taken on significant roles within the company. As the Lead Auditor, I played a key role in obtaining ISO ISMS and QMS certifications, demonstrating my ability to handle important and sensitive tasks. Moreover, I have gained valuable experience in deploying FasyL's internal IPs and solutions to clients, especially those within the banking sector.
- Working in the financial solutions domain has provided me with substantial knowledge of Oracle database, SQL, and PL/SQL, enabling me to troubleshoot and debug issues in the systems and APIs effectively.
- I take pride in maintaining comprehensive technical documentation, including architecture, design, and code documentation, to ensure the smooth functioning of projects. Additionally, I have attended training sessions on Oracle Flexcube.
- As a result of my experience at FasyL Technology Ghana, I have developed strong collaboration skills, effective problem-solving abilities, and a keen eye for detail. I am committed to delivering high-quality software solutions that meet both the company's and the client's needs.

SOFTWARE DEVELOPER (VOLUNTEER PROGRAM) [HTTPS://ABEYIESTUDIOS.COM/](https://abeiestudios.com/)

- As a Volunteer Software Developer at Abeyie Innovation Studio, I had the opportunity to actively contribute to the company's mission of empowering SMEs through the application of design thinking processes. My primary focus was on Android app development, where I used Java and Firebase to create robust and scalable software solutions.
- During the pre-launch phase of an application, I took on the role of supporting end users. By liaising between the development team and users, I ensured that any concerns or issues were addressed promptly, leading to a successful application launch.
- Furthermore, I enthusiastically embraced the opportunity to work on an AI Chatbot project. The goal was to integrate the chatbot into various platforms, such as the company website and Telegram channels, while also enabling seamless communication with other AI platforms like Zapier. I actively participated in defining use cases for the chatbot, envisioning how it could improve user onboarding, provide customer training, and deliver real-time customer support. Leveraging the chatbot's ability to be trained on company information, I contributed to its development and training process.
- My experience at Abeyie Innovation Studio has not only enriched my technical skills but also honed my ability to work collaboratively with diverse teams. I have learned the significance of user-centric design and how technology can drive business growth. Through my volunteer role, I have made meaningful contributions to the company's vision and objectives, reaffirming my passion for

software development and its potential to make a positive impact on businesses and society as a whole.

07/06/2023 – CURRENT Accra, Ghana

AI SOLUTIONS DEVELOPER INTELLIAI

- Collaborated closely with clients to identify pain points and opportunities, translating them into AI-powered strategies that deliver tangible value and drive business growth.
- Extensively utilized AI platforms like Botpress and Zapier to design and implement cutting-edge AI automation solutions for a diverse clientele.
- As an entrepreneurial force in the AI landscape, I established IntelliAI with a passion for leveraging the potential of artificial intelligence to revolutionize businesses. With a focus on developing bespoke AI solutions, I aimed to empower clients to maximize their profits and productivity.
- As an Entrepreneur & AI Solutions Developer at IntelliAI, I take immense pride in driving positive change through the strategic application of AI. My commitment to excellence and the relentless pursuit of knowledge has enabled me to craft transformative solutions that elevate businesses and create a more efficient and automated future.

08/04/2017 – 30/08/2018 Ibadan, Nigeria

SOFTWARE DEVELOPER INTERN JIREH MEDIA HOUSE

1. Developed Gym Management System and Atm Management System using c# programming language.
2. Work with senior software developers to develop and implement software solutions for the company.
3. Take ownership of assigned tasks, and ensure timely delivery of high-quality software solutions.
4. Communicate effectively with team members and stakeholders, and actively participate in team meetings and agile ceremonies.

09/07/2021 – 16/05/2022 Sunyani, Ghana

SOFTWARE DEVELOPER CATHOLIC UNIVERSITY OF GHANA, FIAPRE-SUNYANI

- During my undergraduate studies at the Catholic University of Ghana, I demonstrated my commitment to software development by undertaking several notable projects, including the creation of a Hostel Management System. Leveraging my expertise in HTML, CSS, and PHP, I crafted a fully functional application that streamlined hostel operations and enhanced administrative efficiency.
- Beyond the technical aspects, I thrived in a team environment, collaborating closely with fellow students to ensure the success of the project. In this collaborative setting, I assumed both leadership and technical roles, fostering effective communication and project management skills.
- As part of this project, I embraced frontend development to design an engaging and intuitive user interface. The use of HTML and CSS allowed me to create visually appealing pages that facilitated seamless navigation for users, ensuring an optimal user experience.

● **EDUCATION AND TRAINING**
